NEW YORK, June 11.-Though considerably less active than yesterday, the stock market today was firm throughout and a decidedly more cheerful sentiment prevailed. The factors governing the market included the anticipations of the adjournment of congress today and the absence thus far of evidence confirming the estigold to Europe on Saturday. were progressive and although less activity was displayed in the late session
the improvements were quite marked

"It is a startling fact that, almost without exception, the adulterated teas are dangerous to health. Some of them are actually poisonous-especially impure green teas, which contain copperas and Prussian blue."-New York Herald.

Do Americans really drink so much poison in their tea. or do we pay the New York Herald and other leading American papers to tell fibs for us?

THE FABLED GIANT ATLAS.

lence to the members of his family. When he stumbled into the house last night the young mother and her daughters became frightened and ran out onto the back porch. From there they went down the outer stairs to the veranda in the rear of the first flat. In the meantime Wolter had locked the doors of his own flat. He went out the front way and around to the rear, where the trembling members of his family were standing. Wolter paused a moment and then he deliberately pulled a revolver, pointed it at his wife and fired. The bullet grazed Mrs. Wolter and struck little Mamie full in the face. She fell where she had been standing. The child had scarcely struck the floor before the murderer had again raised his weapon, this time pointed at the eldest daughter. Before the second report rang out the horrified mether had sprung upon her frantic husband. She selzed his arm just as the bullet left the smoking pistol to bury itself in the stomach of Jennie. She fell to the floor. Not yet content with his murderous work, the crazed man leveled the weapon at his wife, but before he could pull the trigger she struck down his arm and the bullet went into the veranda. Nelghbora then interfered and held him until an officer arrived on the scene. Mamie died in the hospital at an early hour this morning. Jennie had not regulared consciousness at midnight. Then it was decided to make an attempt to locate the bullet, but it was not expected the child would survive the operation.

One of the principal uses of Dr. Pierce's Favorite Prescription is the preparation of prospective mothers for the time of trial and danger that comes when a child is born. The "Prescription" is strengthening and invigorating, and lessens pain and danger. It insures the perfect well being and the perfect health of both mother and child. Every woman should know these things before she really needs to know them. There are many things in Dr. Pierce's "Common Sense Medical Adviser" that every woman ought to know. This celebrated work has reached a sale of 680,000 copies at \$1.50 each. The expense of production having thus been covered, 506,000 copies are now being given away. A copy will be sent to any address on receipt of twenty-one (21) one-cent stamps to cover cost of mailing only. Address, World's Dispensary Medical Association, Euffalo, N. Y.
